

JOB OPENING

Continental Divide Electric Cooperative, Inc. is now accepting applications for the following position of GIS Analyst for our Grants Office. Applications will be taken until the position is filled.

JOB RESPONSIBILITIES:

Assist in collecting field data of Continental Divide's distribution system and reporting to National Information Solutions Cooperative (NISC) to perform updates in MapWise (GIS). Develop and update the engineering department processes. Maintain and update the GIS to ensure integration with engineering analysis software and Outage Management System (OMS). Troubleshoot applications and equipment. Develop a general understanding of powerline design, including construction assembly units, equipment, and respective paperwork such as staking sheets, requisitions, transformer sheets, maps, etc. Recommend and evaluate new GIS technologies and equipment. Organize databases/folders for device settings files, drawings, device recordings, events, photos, data files, etc., for field equipment and substations. Receive detailed information through oral communications. At least one year of relevant experience and/or a Bachelor in Geography, GIS Engineering, or other related field preferred.

Must possess a valid driver's license.

Applications can be found online at cdec.coop. Please email applications or resumes to rgalindo@cdec.coop or fax to 505-287-2234.

Continental Divide Electric Cooperative is an Equal Opportunity Employer.
