Non-Permit Service Area Release
Certificate of House/Building Wiring Compliance

Control # _____

Project/Customer Name: _____

Chapter: _____

Description of Building (e.g. color of house/ trailer and roof): _____

Location (e.g. Township, range, section and quarter-section): _____

Home Lease: Yes No

Meter Location: Meter Pole Meter Pole by House/Building Meter on House/Building

I, _____, contracted with an **NM licensed contractor electrician (EE98)** to do the electrical wiring for my home/building to receive electrical service from CDEC. I understand in the event of electrical failure beyond the weatherhead, the liability rests with the contracted electrician.

Home/Building Owner

Date

All work must be 100% COMPLETE and inspected before submitting this form to our office.
(If this is a switchover please contact CDEC for an appointment.)

I certify that the wiring referenced above was performed by myself or under supervision and is in compliance with current National Electric Code, State of New Mexico Building Codes and CDEC standards and is ready for service connection. It is understood that the installation is controlled by the **most** restrictive code regulation.
