

Maintenance Outage Planned in San Rafael

Continental Divide Electric Co-op has scheduled a maintenance outage for **Thursday, Aug. 12**, between **9 a.m.** and **11 a.m.**

Crews are replacing poles in the **La Vega Estates** neighborhood.

The work is necessary to allow the co-op to add fiber-optic cabling and other communication equipment to our system to enable better monitoring of voltage and power quality in the future.

Construction of our SCADA (Supervisory Communication and Data Acquisition) system also prepares La Vega Estates to voluntarily subscribe to our fiber-optic internet service through Red Bolt Broadband.

Those who depend on electricity-powered medical equipment should have battery-powered backups on hand or make arrangements to stay in a location with access to electricity during this outage.

If you have any questions about the electrical upgrades or Red Bolt Broadband, please contact our Grants office at **(505) 285-6656** or visit **RedBoltBroadband.com**
